## SAFEGUARDING YOUR CARD

1. Sign on your card immediately upon receipt using a non-erasable ball-point pen.
2. Upon receipt of your new/replacement card, please destroy your old card by personally cutting it in half directly through the embossed account, the magnetic strip, the hologram and the electronic chip.
3. Treat your card like cash - it is worth a great deal in the hands of a thief.
4. When using your cards at merchants, treat, value and protect your card as if it were cash, keep your card secured and ensure that it is in your possession at all times and do not leave your card unattended.
5. Avoid carrying all your cards at one time - only those you need for the day.
6. Please ensure that the transaction amount is correct before you enter your PIN or sign any vouchers or transaction records given to you by any merchants or financial institutions, or when tapping your card at contactless terminal and before you enter your PIN at Electronic Banking Terminals.
7. Make sure the card returned to you is yours and not someone else's.
8. Check and ensure that your card is returned to you after every transaction by the merchant.
9. Always ensure your cards are kept in the same place in your wallet/purse so you notice immediately if they are missing.
10. Ensure that you are authorising all use of your credit card (face to face/on phone/internet).
11. Keep all your charge slips and check your monthly credit card statement against them.
12. If you detect an incorrect charge, call our Customer Care Center immediately and confirm it in writing.
13. Keep a record of the telephone numbers and addresses of all your card issuers in a safe and accessible place ready for emergency use.
14. Be cautious whenever anyone requests for your credit card number. Do not reveal this information to anyone calling to qualify you for a free vacation or for credit card insurance, or to tell you that you have won a prize.
15. To protect the confidentiality of your PIN and your card from unauthorised use:
  - You must not write the PIN on the card or allow any written record of the PIN to be kept in a manner which would enable another person to have access to both your card and PIN at the same time;
  - You must not disclose the PIN to any person, including any employee of the Bank;
  - You must not allow any person access to your PIN and/or your credit card.
16. If you are travelling overseas, call us in advance and tell us where you are going and for how long.
17. Keep our phone numbers easily available to you to immediately report any lost or stolen card, failing which you shall be liable in full for any unauthorised transactions effected through the use of your credit card.
18. Always report to us immediately if your card is stolen and always check your credit cards periodically to ensure that the cards are not missing from your wallet.

## CARD SAFETY

The electronic chip and black magnetic stripe on the back of your Credit Card have sensitive encoding, which requires special care. Below are some of the tips on how to avoid damaging your Credit Card:

1. Your Credit Card should not be kept in an area where there is a continuous magnetic field. That includes radios and electrical appliances.
2. Don't leave it on top of your TV set for any length of time.
3. Avoid scratching the chip or magnetic strip.
4. Do not allow your AEON Credit Executive Business Card's magnetic strip to come into contact with another magnetic strip.
5. Do not bend the Credit Card.
6. Keep your Credit Card away from heat and direct sunlight e.g. don't leave it in a closed car parked under the sun.

These simple precautions ensure that the information stored will not be affected and your Credit Card will always be accepted, whenever it is presented.
